

# CREATING IBM CLOUD SERVICE

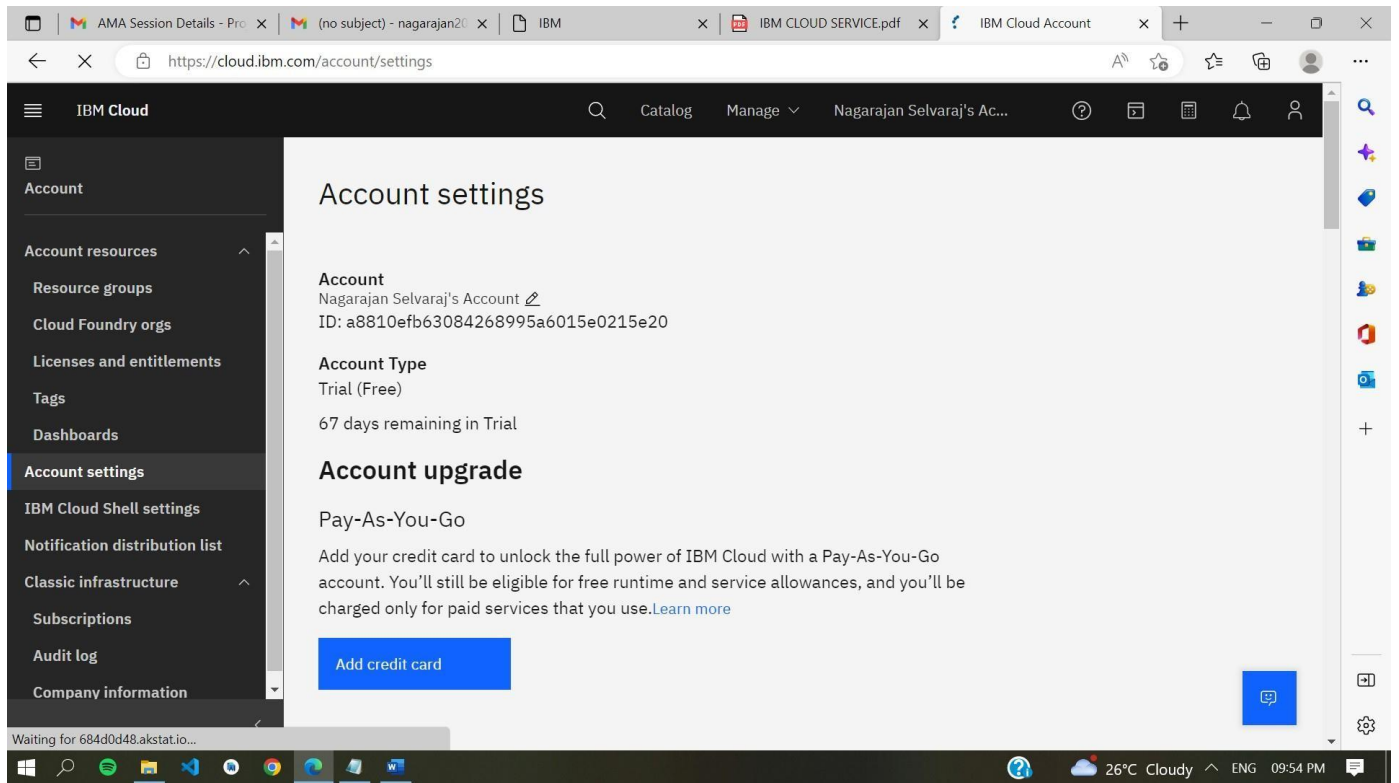

Date	10 NOVEMBER 2022
Team ID	PNT2022TMID16972
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

The screenshot displays the IBM Cloud dashboard in a web browser. The browser's address bar shows the URL <https://cloud.ibm.com>. The dashboard header includes the IBM Cloud logo, a search bar, and navigation links for 'Catalog', 'Manage', and the user's account 'Nagarajan Selvaraj's Ac...'. A 'Create resource' button is prominently displayed in the top right corner of the dashboard.

The main content area is titled 'Dashboard' and features a 'For you' section with five recommended actions, each with a 'Getting started' button and an estimated time:

- Build**: Explore IBM Cloud with this selection of easy starter tutorials and services. (5 min)
- Monitor your resources**: Get visibility into the performance and health of your resources. (5 min)
- Explore IBM Analytics Engine**: Develop and deploy analytics applications using open source Apache Spark and Apache Hadoop. (10 min)
- Create and deploy an application**: Browse our starter kits, and then select one to jump start the process to create and deploy your app. (5 min)
- Create a Kubernetes cluster**: Automate deployment; manage your container apps in a native Kubernetes experience. (5 min)

Below the 'For you' section, there are three horizontal panels: 'User access' with a 'Manage users' link, 'News' (highlighted in blue) with a 'View all' link and the text 'IBM Tech Now: October 24, 2022', and 'Planned maintenance' with a 'View all' link. The bottom of the dashboard includes a footer with system information: '26°C Cloudy', 'ENG', and '09:51 PM'.

An IBM Cloud Service created Successfully.
